## Commissioner for Patents

Applicants' amendment and remarks of June 24, 2008, are non-responsive. Claims added by amendment following action by the examiner, MPEP § 818.01, § 818.02(a), to an invention other than previously claimed, should be treated as indicated by 37 CFR 1.145. 37 CFR 1.145 states that if, after an office action on an application, the applicant presents claims directed to an invention distinct from and independent of the invention previously claimed, the applicant will be required to restrict the claims to the invention previously claimed if the amendment is entered, subject to reconsideration and review as provided in § 1.143 and 1.144.

The amendment filed on June 24, 2008, amending the claims such that they are drawn to a method of making a product is non-responsive (MPEP § 821.03). Originally presented claims were drawn to a personal care product classified in class 428, subclass 339. Currently amended claims are drawn to a method of making a product, classified in class 264, subclass 210.1. Restriction for examination purposes as indicated is proper because all these inventions listed in this action are independent or distinct for the reasons given above and there would be a serious search and examination burden if restriction were not required because the inventions require a different field of search (for example, searching different classes/subclasses or electronic resources, or employing different search queries). As set forth above, Applicants are required to restrict the claims to the product comprising a multilayer dewatering fabric as previously claimed and examined.

Since Applicants have received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, the claims are withdrawn from consideration as being directed to a nonelected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the above-mentioned amendment appears to be a bonafide attempt to reply, Applicants are given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
